*CasePoint pvt. Ltd.*

Surat

Contributed to designing, developing, and optimizing full-stack enterprise applications, enhancing system performance and usability using modern technologies and agile practices.

- Developed and optimized internal web applications using .NET Core, PostgreSQL, Redis, and Kendo UI.
- Built reusable front-end components with React.js and enhanced performance of critical workflows.
- Integrated APIs and followed CI/CD practices using Azure DevOps for seamless deployment.

**Machine Learning & Deep Learning Intern**

June 2024 — July 2024

*SAP Code Unnati*

Surat

Gained hands-on exposure to emerging technologies including Machine Learning, IoT, Deep Learning, and AI through an industry-driven internship focused on solving real-world problems using data-driven approaches.

- Gained practical exposure in ML, Deep Learning, Data Analytics, and AI fundamentals.
- Built small AI prototypes and IoT simulations to solve real-world problems using Python.

## PROJECTS

### StudyNotion

July 2025

- Developed **StudyNotion**, a full-stack EdTech platform using the **MERN stack**, featuring secure user authentication, course creation, video streaming, and Razorpay payment integration.
- Implemented role-based dashboards, real-time progress tracking, and media storage with **Cloudinary**, ensuring a responsive and seamless learning experience.

### Blog App

March 2025

- Developed a responsive blog app using **React.js**, **Context API**, and **Tailwind CSS**, with features like category filtering, pagination, and blog detail's view.
- Managed global state with Context API and deployed the application on **Vercel** for seamless hosting.

### Weather App

Oct 2024

- Developed a responsive **Weather App** using **HTML**, **CSS**, and **JavaScript**, integrating the **OpenWeatherMap API** and **Geolocation API** for real-time weather updates.
- Implemented features like current location weather, global city search, and dynamic UI with detailed weather metrics.

### Razorpay Clone

Aug 2024

- Developed a fully responsive **Razorpay landing page clone** using **HTML5** and **Tailwind CSS**, showcasing modern design principles and mobile-first UI.
- Implemented key sections including feature highlights, testimonials, product suite, and animated logo grids, with responsive navigation and clean layout.
